

Practice Payment Plan Questionnaire

- Do the capitation companies and their support make a significant difference to your practice, your patients and you?
- Could you survive without a capitation company?
- Could you survive without the current support you are getting from your present capitation company?
- Do you consider capitation companies essential for the future of dentistry and you?

If you were given support during the creation and initial launch of your own plan;

- Could you introduce a payment plan yourself?
- Do you know the exact service you want to offer your patients?
- Is it the service you are offering now?
- Do you feel that the on-going administration charges are good value for money?
- Is the support you get essential to your everyday running of your practice?
- Could you administer a payment plan in your own practice?
- Could you arrange the necessary direct debit system necessary to introduce your own plan?
- Could you acquire the necessary A&E insurance cover independently of a capitation company?
